ACACIA

CONNECT. EJECT. PROTECT.

2 PLAYERS

15-20 MINUTES

8+ AGE

It's like Connect Four with Pushing!

Acacia is a fast, thinky, two-player abstract strategy game where owls and squirrels battle for cozy hollows in an old tree. Place your animals into the grid, building toward a line of four - but when your opponent gets too comfortable, push them out. Sacrifice one of your own pieces to eject theirs and claim the space, turning their progress into your victory. Every shove is satisfying, every cube is precious, and one clever displacement can flip the entire game.

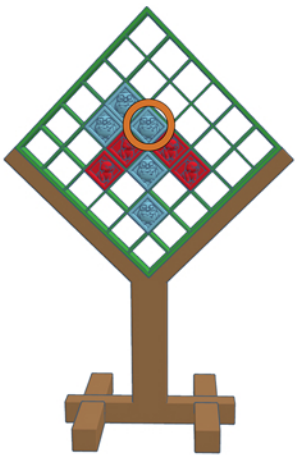
Think *Connect Four*, with two more rules and a lot more depth.

HOW TO PLAY

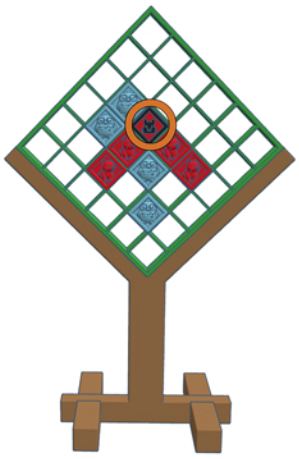
1. Players alternate placing pieces adjacent to other pieces.
2. You may eject one of your opponent's regular pieces with a "blocker" piece.
3. Return the ejected piece to your opponent.
4. "Blocker" pieces can only be ejected with a neutral piece.
5. Connect Four pieces of your colour to win, OR be the first to place all your pieces.

FEATURES

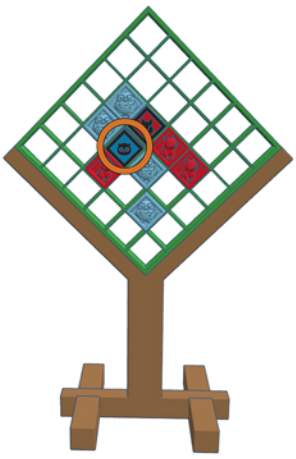
- **Familiar with a Twist**: The core game is easy to grasp.
- **Strategic Depth**: There is no "solved" approach to the game.
- **Replayability**: Lots of different approaches to try out.
- **Simple Rules**: Rules can be explained in 30 seconds.



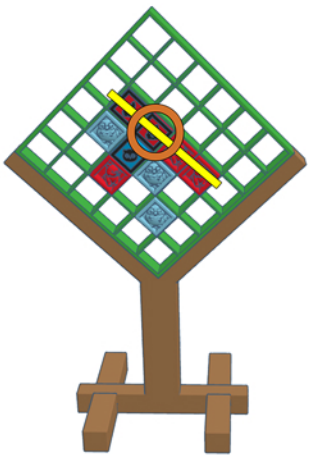
Place an Owl



Eject Your Opponent



Try to Make a Line



Victory!
