Daruma Drama

Fall seven times, stand up eight.

IT'S LIKE
Spades, if every player had a trump of their own

3–5 best 4 PLAYERS | **30–40** MINUTES | **~1.8** BGG WEIGHT (EST.) | **10+** AGES

One trick: Blue is led

Cara's fall line: she rises

Her oldest fallen card is Gold, so Gold is **her** trump and nobody else's. Winning banks all three fallen cards, and leaves her with no trump.

PROTOTYPE ART

One trick: Anna leads the Blue 4 and Ben follows with the Blue 9. Cara has no Blue, so her Gold 3, her trump colour, wins. Dev has no Blue either, but his trump is Red, so his Green 10 can't win. Anna, Ben and Dev each lay their card sideways: they have fallen.

About the Game

A trick-taker where losing earns you a trump.

Every card you lose with stays in front of you, knocked over. Win a trick and you stand back up: your fallen cards become points, but your trump is gone. Play one hand each; the highest total wins.

Features

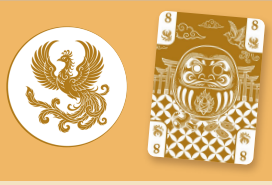

- **Multi-use cards.** A losing card falls, may become your trump, and scores a point when you rise.
- **Open stakes.** Every trump and every fall line lies face up: the table sees who is about to stand.
- **No dead hands.** A weak hand loses more, so it earns trumps and always has a rise to build.
- **Quick to teach.** Classic must-follow tricks plus one twist, on a one-sheet rule leaflet.

Fall, Trump, Rise

Lose and fall

Lose a trick and your card lies sideways in front of you, in your fall line.

Can't follow? Trump

The colour of your oldest fallen card is your trump. It beats the led colour.

Win and rise

Bank your whole fall line, one point a card. Then fall again to earn a new trump.

Three at most

A fourth fall knocks your oldest card off, and your next card becomes your trump.

CONTENTS 60 cards: 55 Daruma cards (five colours, 1–11) · 5 player aids · plus a score pad

STATUS Rules complete · bot-simulated at 3–5 players · ready for table testing · all art prototype-placeholder
